NOTE: You hereby authorize the Settlement Administrator to review both your records and Defendant's records to determine the number of months for which you qualify for payment. The determination by the Settlement Administrator will be based upon a review of your records and Defendant's records and will be final, so you will not have another opportunity to dispute the number of weeks. Thus, if you claim a different number of months worked than listed on page one, then you should include any records or writings (for example, pay stubs) you have that support your claim. In the event you do not provide any records or writings then Defendant's records will be presumed correct and the Settlement Administrator will base its decision upon a review of Defendant's records only.

My signature below is my consent to be bound by the Settlement described in the Notice enclosed with this Claim Form.
